

# INVITATION

# First Amsterdam Breech Conference: **Teach the Breech!**

June 30 & Juli 1 2016 Amsterdam, The Netherlands

Amsterdam   
**BREECH**  **CONFERENCE**  
 2016 Teach the Breech!

Since the Hannah trial the percentage of caesarean section for breech at term has risen such, that many young doctors hardly gain any experience with vaginal breech delivery. Still, many women ask for vaginal delivery when external cephalic version has not been successful.

In addition, recent scientific research shows that vaginal birth of a baby has essential benefits. It is therefore of essential importance for gynaecologists and midwives to update their knowledge and skills regarding vaginal breech delivery.

*It is time for 'Teach the Breech'!*

The two conference days are completely dedicated to the breech. The program includes the following: vaginal birth vs. caesarean, external cephalic version, vaginal delivery in various positions (lithotomy, upright and all fours) and hands-on practice on manikins. The program contains several inspiring national and international speakers.

Keynote speaker will be Prof. dr. Frank Louwen from Germany (Universitätsklinikums Frankfurt).
